scikit-learn

WORK EXPERIENCE

Home Tutor in Mathematics

January 2036 - Present

- Leveraged strong communication skills to provide personalized math tutoring, enhancing students' understanding and confidence.

PROJECTS

Personal Blog [website]

- Utilized Hugo to create a self-designed blog template featuring a responsive layout and multilingual support.
- Developed Python and Shell scripts to automate website content publication and conduct data analysis.

Art Progress Tracker [showcase]

- Help users easily track and organize their paintings with a fun, gamified design and progress bars to motivate their drawing habit.

ACHIEVEMENTS

Trading Challenge

- Achieved a top 100 placement, ranking 100th out of 2,000 teams.

INTERESTS

- Code Blogging: Document my coding journey and share insights on emerging technologies and programming techniques through my personal blog.
- Linux and Open Source Enthusiast: Engage in contributions to open-source projects on GitHub, with a strong proficiency in command line operations.
